

## LATE FOREIGN NEWS.

## WHAT MELLO IS DOING IN BRAZIL.

Minor News Notes Relating to the Outside World—Items of Interest To All.

## What Mello is Doing.

The time is fast approaching when the new navy of President Peixoto will meet that of the rebels, and the latter predict that the engagement will be the downfall of the Government. The fighting in Rio bay continues with great loss to life and property. The big naval engagement to come will decide how long this will continue.

A semi-official dispatch which has been received here from the beleaguered capital says that after a heavy cannonading on Saturday the loyalist forces captured the island of Bon Jesus, in Rio bay, where the rebel forces kept their water supply. It adds that while Mello was trying to re-enter the bay in the flagship Aquidaban she was crippled and repulsed by shells from the loyal forts at the harbor entrance.

The torpedo boat Aurora, which Peixoto bought recently in Europe, has arrived at Rio with an English crew which refused to re-ship for fighting service on any terms.

## The Prendergast Trial.

CHICAGO, Dec. 26.—The defense in the Prendergast case will rely on the fact that the jury was allowed to separate to vote yesterday, which will give good grounds for a new trial, if the case goes against him. Further testimony was introduced today going to show the prisoner is insane.

Counsel for defense created a sensation by announcing that any verdict short of hanging would be accepted. The family is willing the jury return a verdict of imprisonment for life, or confinement in a madhouse, but would appeal from a death verdict.

CHICAGO, Dec. 27.—At the Prendergast trial today Judge Horton, before whom Prendergast was given his preliminary hearing, and several other witnesses testified that they considered the prisoner sane. Drs. Spray and Blumhardt, medical experts, both declared they believed the prisoner sane.

## Miscellaneous.

The Keasarge has been ordered to San Domingo to protect American interests. The reason was late advice to the effect that an effort had been made to assassinate President Heureaux.

Archdeacon Shaw, chaplain to the British Legation at Tokio, while walking on the street with his wife, was assaulted by two drunken rowdies and much maltreated.

Stanford University has received a further endowment of \$300,000. It comes from a brother of the late Senator Stanford.

Wm. Krelling, the owner of the Tivoli Opera House at San Francisco, is dead.

San Francisco is so infested with footpads that it is dangerous to be out at night, even in the heart of the city. There is more trouble over the Blythe estate to find out where all the money has gone. Since Blythe's death, \$1,200,000 has been received, of which \$250,000 was required for expenses, and only \$950,000 remains in Court. The Public Administrator is trying to locate the balance.

John McNolly, who has been sentenced to hang five times, has again been reprieved for one month.

Pinkerton, the world-famous detective, has had a narrow escape from being shot by one of his old employees, who had become a robber and had been sent to prison by Pinkerton.

Registration has begun with the Chinese laborers who desire to remain in the United States.

The bill to make Arizona a State has passed the House. The Democrats are now pushing Utah's claims to Statehood, and to give the Mormons a State government.

The Bi-metallic Congress has decided not to put a new party in the field in 1896, but to organize silver leagues all over the country, and to pledge all silver men to vote only for those who are in favor of the white metal.

It is rumored that all the great trunk railroads east of Chicago will be tied up by strikes, in order to force the Lehigh Valley road to accede to the demands of its strikers.

Wayne McVeigh, who was United States Attorney-General under Garfield, has been appointed Ambassador to Italy in place of Van Allen, who declined the position. He is one of the highest gifts in Cleveland's power as a reward.

It is reported from Washington that Secretary Gresham is about to notify Brazil that American interests there must be protected, and that he will publish to the world that no foreign Power would be permitted to interfere in the revolution.

Poverty and starvation still flourish in the big cities of America. It will cost Chicago \$1,000,000 to feed its starving poor during this winter. In Pittsburgh the city offered work to the unemployed, and 5000 men stormed the City Hall, and fought for a chance to get a job. Many were severely injured.

A dispatch from Washington states that John T. Irish, of San Francisco, has been appointed naval officer of that city. The place pays \$5000 a year, with nothing to do.

A bridge in course of construction over the Ohio river at Louisville, fell 110 feet into the icy river, carrying fifty-eight men with it. Twenty lives were lost. The accident was due to the wind.

The tariff bill for revenue only has been handed to the House without the Internal Revenue measure or the Income Tax feature. These will be presented in a separate bill.

The Hawaiian Cyclorama has arrived in San Francisco from Chicago and is being put up on the Midwinter Fair grounds.

In the big billiard match between Schaefer, Slosson and Ives, in New York, the former won the first prize. He made in his last run 598 points, beating the record in the balk line game. His average was 100.

There is little faith in the Crispi Ministry in Italy, and there are grave signs of trouble pointing to revolution. The Department of Sicily has refused to pay any more taxes to the present Government.

Madame Modjeska the actress has contributed \$200 to the Midwinter Fair.

## MORE PLOTS.

## THE ROYAL STANDARD TO BE RAISED AT WASHINGTON PLACE.

## The Old Cabinet to Step Down, and Gulick &amp; Co. to Go In.

Royalist plotting goes on as actively as ever, a new plan cropping up as soon as the folly and absurdity of the last has been exposed. Royalists now pretty generally recognize the fact that there is nothing more to hope from the United States. The Holomus is bewailing the folly of "Her Majesty" in refusing to grab at any conditions in sight, thus keeping her hungry friends out of office. The result is that they think the time has come when they must help themselves. The sense of shame also drives them to do something.

Some dark night in the next week or two, when the moon is hiding her head in shame, the royalists propose to congregate at Washington Place, hoist the royal standard and declare martial law. The old Cabinet will be on hand, in order to resign, as it appears they are still in office. After they have resigned, Mrs. Dominis will appoint a new Cabinet, consisting of Gulick, Trousdale, Godfrey Brown and J. O. Carter. What the rest of the programme is, the ADVERTISER man has not been able to learn, but it is supposed that the leaders of the Provisional Government will be led in chains into the backyard and decapitated on the chopping block.

## Light on the Hawaiian Case.

The Troy Times today presents a most graphic and interesting account of the situation in the Hawaiian Islands. It is from the facile pen of Colonel C. L. MacArthur, the veteran editor of the Troy Northern Budget, and a journalist of long experience and conceded ability.

Colonel MacArthur visited Hawaii last winter, spending many weeks in the islands. He was at the same hotel with Commissioner Blount, saw that gentleman daily, and thoroughly familiarized himself with affairs there, gathering information from many sources and getting into close acquaintance with all classes of the people. It is safe to say, therefore, that his presentation of the facts is most accurate and unbiased. His conclusions fully sustain the views held by Mr. Stevens, the former American Minister, and the attitude assumed on this question by President Harrison's Administration. On the contrary, they are strongly opposed to the course pursued by President Cleveland, Secretary Gresham and "Paramount" Blount. The article also sets forth the commercial and strategic importance of the Hawaiian Islands, and gives much striking and concise information that must clear away a great deal of misconception on this subject.

Colonel MacArthur prepared his article for the New York Mail and Express at the special request of the managers of that able and enterprising paper. The Troy Times is enabled to reproduce it simultaneously with its New York contemporary through the courtesy and kindness of Colonel MacArthur, and of John A. Schleicher, editor.—Troy (N. Y.) Budget.

Mr. Cleveland must learn that he is not the Government—not even the most important part of it—and that the country has a right to know what its Chief Executive is doing or proposes to do on all great national or international questions.—Pittsburg Commercial.

## GOVERNMENT EXHIBIT.

## TO BE MADE AT THE MIDWINTER FAIR.

## Minister Thurston Asks That A Number of Curios, etc., Be Sent As a Loan Exhibit—Some of the Things Wanted.

The text of the request made by Minister Thurston to the Government, through the Councils, for a loan exhibition of various things to be sent to the Midwinter Fair and form a part of the Hawaiian exhibit to be made there, follows. It has received favorable comment from members of the councils, and will undoubtedly be acted upon. It will be noticed that no financial aid is asked, and that the safe return of all matter sent is guaranteed.

To His EXCELLENCY S. B. DOLE, Minister of Foreign Affairs, etc.,

SIR—I desire to lay the following matter before you for consideration. A corporation has been formed in this city for the purpose of making a Hawaiian exhibit at the Midwinter Fair in San Francisco.

The intention is to make as complete and representative an exhibit as possible of all phases of Island life and products. For this purpose a space facing on the grand court of about two acres in extent has been secured. It is considered one of the best sites on the grounds.

In order to meet the expenses of the enterprise a small entrance fee will be charged and Hawaiian products, curios, photos, etc., will be sold.

In order to give life and attractiveness to the exhibit it is proposed to construct upon the general principle of the village exhibits so successful and attractive at the Chicago Fair.

The following enumeration of some of the details of the exhibit will illustrate its character.

1. The cyclorama of Kilanea exhibited at Chicago, will be reproduced, with much more elaboration than it was in Chicago.

2. A lake one hundred feet by sixty and four feet deep has been constructed in the village in which native Hawaiians will give swimming exhibitions, and upon which Hawaiian canoes manned by natives will be placed.

The Spring Valley Water Works has furnished the Company with free clay and rock for making the lake and furnished also free rock and soil for making walks and gardens in the village and water for the lake and a fountain therein.

3. A village of grass and coconut leaves, to the number of about ten houses will be constructed.

The grass houses have been forwarded. The following additional building material has also been forwarded viz:—550 coconut leaves; 200 palm leaves; 800 bamboos. There will be over twenty separate and distinct buildings in the exhibit.

4. For ornamental purposes there has been forwarded from Hilo 100 tree fern trunks from 8 to 15 feet long and 30 cords of shorter fern trunks.

Several hundred palms and other plants have already been forwarded or go up on the next steamer.

5. A coffee and light refreshment stand with capacity for three hundred people, facing both the village and the outer court has been constructed.

It is proposed to make a specialty of Hawaiian coffee and food products here. This is a concession to Mr. Tom May and Allan Herbert, under the personal management of the latter.

6. A main exhibition hall 50 by 35 feet, with a ten foot veranda on three sides has been constructed in which all general exhibits will be placed.

7. A live fish aquarium is being constructed for the exhibition of Hawaiian fish. Over fifty varieties have already been procured and are now thriving in captivity and a contract has been made for the catching and delivery of a man-eating shark not less than ten feet long.

8. Under the charge of Mrs. Allan there will be manufactured on the grounds mats, fans, leis, seed and shell work etc. which with other curios will be sold.

9. An exhibition hall is being constructed in which Hawaiian singing, ancient and modern, chanting mele, etc. will be shown.

10. Accommodations for a band-stand of the shell model similar to the one in Golden Gate park has been constructed.

11. All employees will live on the grounds—sleeping and eating accommodations for sixty people being provided.

12. The Company has the right to install its own electric light plant and is doing so. It will utilize eight hundred incandescent and twelve are lights and use five hundred oil lamps for decorative purposes.

The foregoing is an outline of the more salient features of the exhibit. There are many minor items not mentioned which will go to make it attractive and valuable as an advertisement of this country.

It is the desire and aim of the Company to make the exhibit thoroughly representative of the country of to-day as well as of its ancient character, and for this purpose every effort will be made to draw a sharp contrast between the exhibits illustrating ancient and modern Hawaii.

It is manifest from the foregoing description that the cost and running expenses of the exhibit will be very large. The Company does not, however, ask for any pecuniary assistance from any

one; but, in order to make the exhibit as complete and valuable as possible is asking for the loan of various exhibits which it cannot afford to purchase and which, in many instances, money cannot buy.

Of this character, are a large collection of paintings of the volcano and general scenery; island fish to the number of nearly one hundred; island fruit and flowers, etc.

The Kamehameha trustees have agreed to make a loan exhibit from the museum.

The Volcano House Co. will exhibit the finest collection of lavas ever collected.

Mr. J. J. Williams will exhibit over eight hundred photographs of island scenery and subjects.

The Kona Coffee & Tea Co. will make an exhibit of coffee showing the trees from an inch high to full grown, and the berry in all stages.

Many other minor loan exhibits will be made.

On behalf of the Company, I respectfully request that the Government make a loan exhibit of such material as will illustrate its method, past and present. It is not necessary to enumerate the articles desirable, but the following is suggested as to the character of the exhibits.

Foreign Office.—Forms of official Commission; Treaties with foreign countries; Chinese passport system; national and royal emblems; samples of Hawaiian orders and decorations, etc.

Interior Office.—Maps, weather statistics, etc.; License forms. Reports, laws, literature.

Finance Department.—Forms of bonds, paper money; Post Office money orders, postage stamps, coins, tax books, maps, etc.

Board of Education.—School books used—Native and English. Pictures of school buildings, scholars and teachers. Examination papers, methods, industrial school products, etc.

A general exhibit of portraits of past kings etc., of the present Government and Councils, historical relics, etc., More particularly the feather cloak.

Such an exhibit neatly arranged can be made extremely interesting and valuable.

It would be of the same character as that of the United States Government at Chicago, in which exhaustive representation of the business methods and products of every department were made.

As to the exhibition of relics, it was extended to the minutest detail of the furniture, apparel and belongings of celebrated personages of the country, which exhibits illustrating the life of the times and the persons, always attract much attention.

The Company will undertake to pack, ship and care for all the exhibits furnished, without expense to the Government, and after the Fair to make such disposition thereof as may be directed by the Government.

I desire also to state on behalf of the Company, that it has been endeavoring to make arrangements for the employment of a band at the fair, but so far owing apparently to political influence, such arrangements have not been completed.

If the Government will grant the Government band a leave of absence to go to the Fair, the Company will pay all the traveling and living expenses to and from and at the Fair for a period of say six weeks to two months.

Hoping that the foregoing suggestions may meet with your approval, I have the honor to be your obedient servant,

L. A. THURSTON.

## Library Exhibit.

The following books have been received by the Honolulu Library and Reading Room Association by the last mail:

"Micah Clarke," by A. Conan Doyle.  
"The Emperor," by George Ebers.  
"Thelma," by Marie Corelli.
